Subject: Re: Hot topic briefing document on Dimock

The technical meeting has tentatively been blocked for Dec 20, but still working on finalizing that. Jennie was checking out the broader communications discussion since some wanted to discuss Air and other issues beyond the well construction/remediation we had planned.

The Hot Issue paper should speak to our requested meeting with PA DEP on Dimock and the status of plans to schedule such a meeting. It is billed as a technical exchange - there will be a separate meeting with PA DEP on Marcellus issues generally - focused on communications.

Karen,
Made some minor edits. Please review. If OK, I will incorporate and send to the 16th floor. Thanks.
Tom
